

Ac180 expansion battery

You need to buy two adapters, one to attach to the AC-180 from the expansion battery, and another to allow a 500 watt panel that formerly worked with the AC-180 to work with the expansion battery.

- The AC180 and B80 cannot be fully integrated. The AC180 can only pull energy from the B80 and can't directly charge it with the same Aviation -> DC7909 cable. Bluetti is calling this Power Bank Mode.

Bluetti B80 expansion battery for EB3A EB55 EB70s AC60 AC180Buy your B80 today <https://amzn.to/3D2WLkk> (more product links below, scroll down)COMING SOON ...
