

Altris battery how much

Sodium-ion battery company Altris has raised EUR9.6 million in a Series A funding round. With sustainability as the driver, Altris has developed a

Uppsala-based sodium-ion battery company Altris AB announces that it has raised EUR9.6 Million (100 MSEK) in a Series A funding round.

The Swedish sodium-ion battery developer Altris has successfully raised SEK 150 million (approx. EUR 13 million) in a Series B1 funding round,

With the successful completion of its Series B1 funding round, raising SEK 150 million (approximately EUR13.2 million), Altris is well-positioned to expand

Altris, the Swedish sodium-ion battery developer, has secured SEK 50M of bridge financing from its current owners and appointed Björn Malm as its new CEO and Christer Bergquist as new CFO, as

Altris' cathode material Fennac can deliver on all of such needs and is currently stronger than Lithium Iron Phosphate batteries on all key criteria, except cycle-life and price. Altris projects that by 2023,

Altris is a leading developer of sodium-ion batteries, offering superior performance and sustainability. Our innovative energy storage solutions are made from abundant and renewable materials,

About Altris Altris develops sodium-ion battery technology within the energy storage and automotive sectors. The company focuses on the production of sodium-ion batteries, which utilize materials such

Altris, a pioneering Swedish developer of sodium-ion battery technology, has reached significant milestones that are set to enhance the

Altris' cathode material Fennac can deliver on these needs. Altris is targeting markets where batteries are expected to offer a good mix of performance,

The Uppsala company Altris, whose business concept is to enable next-generation batteries, has gone from strength to strength since its founding

Altris' Business Model Altris' business model is based on developing and licensing sodium-ion battery technology, as well as producing and selling cathode materials and battery cells. The company

Altris, develops a new sodium-ion battery cathode material that is made entirely of abundant and

Altris battery how much

environmental materials. Here you'll find information about their funding, investors and team.

The achievement marks an important milestone for Altris, which is now working to scale up the giga-manufacturing of its patented cathode material, Altris Prussian White. Altris is proud to

With renewed investor confidence, the company is well positioned to advance its technology and commercial impact. Altris, the pioneering Swedish

GLENDAL, May 13, 2024 - Clarios, a global leader in advanced battery solutions and Altris, a Swedish developer and prototype manufacturer of sodium-ion

Altris, a Uppsala-based sodium-ion battery developer, has raised EUR13.2 million (SEK 150 million) in a Series B1 funding round, welcoming Clarios and Maersk Growth as new investors.

The Swedish sodium-ion battery developer Altris has successfully raised SEK 150 million in a Series B1 funding round, introducing new investors such as Clarios and Maersk Growth. The

Altris (Sweden), is revolutionising sustainable battery technology. Altris specialises in sodium-ion batteries. Fennac's, their cathode material, offers competitive battery performance with lower

The Swedish sodium-ion battery developer Altris presents a sodium-ion battery cell that has been validated for a best-in-class energy density of over

The Swedish sodium-ion battery developer Altris has successfully raised SEK 150 million (approx. EUR13 million) in a Series B1 funding round, welcoming new investors such as Clarios and

The Swedish sodium-ion battery developer Altris receives support from the Swedish Energy Agency within the programs Industrial Leap and NextGenerationEU. A total of SEK 77 million

Altris is a sodium-ion technology company that manufactures the cathode material Fennac's; and licences battery design for energy storage and transport applications. Our mission is to enable high ...

When European homeowners and businesses ask "Altris battery how much?", they're not just inquiring about price tags. They're seeking energy independence in an era of volatile electricity

Altris, the pioneering Swedish sodium-ion battery developer, has raised an additional 80.75 MSEK (approx. EUR7.3 million) from existing investors, including InnoEnergy.
