

Exagrid ex13000e

US-Unternehmen ExaGrid hat mit seinem Modell 'EX13000E' seine EX-Serie an Backup-Appliances erweitert. Wie alle Modelle der Produktfamilie bietet das System Byte-Level

ExaGrid is very cost effective at transferring backup data offsite because ExaGrid's deduplication only moves changes, requiring minimal WAN bandwidth. The

ExaGrid offers a total of nine appliance models, which can be mixed and matched into a single grid. This can scale from a 1 TB full backup up to a 294 TB full backup in one grid.

The EX13000E allows customers to store a 130 TB full backup in a single GRID-based disk-backup system with data deduplication. The EX13000E can be seamlessly added to any existing ExaGrid

Exagrid Product Name: EX13000E Exagrid Part Number: EX-32TB-DB Product Description: Exagrid Server EX-32TB-DB EX13000E Disk Capacity, Raw: 32 TB, Useable: 26 TB, 13 TB Full Backup

- Shipping lead times of Exagrid hardware generally depends on your requested configuration, but can often ship the same day (depending on the time of your order). - All IT hardware we sell comes with

ExaGrid Backup Appliances Fastest Backups. Fastest Recoveries. Unparalleled, Cost-effective Scale-out. ExaGrid provides tiered backup storage with a unique disk-cache Landing Zone, long-term

I've reviewed the ExaGrid EX13000E Technical Specifications datasheet. This document details the appliance's support for various backup applications and its scalability from 3TB to 1PB of backup data.

Executive Summary ExaGrid delivers better backups using the only hyper-converged secondary storage (HCSS) for backup with data deduplication purpose-built for all leading backup applications that

ExaGrid EX13000E - NAS server - 32 TB Device Type NAS server Host Connectivity Gigabit Ethernet Enclosure Type Rack-mountable - 3U Total Storage Capacity 32 TB Storage Capacity Details Raw:

Description ExaGrid is a scalable, cost-effective disk-based backup with deduplication solution that revolutionizes how organizations back up and protect

ExaGrid's EX13000E disk backup system utilizes a scalable GRID-based architecture that combines 10 appliances in a GRID to store a 130TB full backup, plus weeks or months of retention.

ExaGrid Systems, Inc. (the leader in cost-effective, scalable disk-based backup solutions with data
