

Mainspring energy linear generator

The Mainspring Linear Generator delivers an unmatched level of flexibility for the transition ahead. It's local so you can site where power is needed, it's dispatchable so you can ramp up and down to

Company Overview Mainspring Energy is revolutionizing power generation with the world's most flexible and adaptable local power generation technology, the Mainspring Linear Generator.

How Mainspring Energy's linear generators expand capacity, improve resilience, and support the grid. Power demand is accelerating, driven by electrification, data centers, and industrial

The pilot project, to be held at Travis Air Force Base, California, this year, will assess the Linear Generator's fuel efficiency, power output, consumption, and emissions data for each fuel type ...

Utah Municipal Power Agency (UMPA) selects Mainspring Linear Generators to supply 48 MW of new dispatchable local generation capacity.

In our conversation with Shannon, she explains how Mainspring Energy's linear generator technology is being deployed across behind-the-meter and utility-scale applications to deliver modular ...

Mainspring Energy is revolutionizing power generation with the world's most flexible and adaptable local power generation technology, the Mainspring Linear Generator. Commercial, industrial, and utility

Mainspring Energy is a pioneering energy technology company that develops high-efficiency power generation solutions. Their flagship product, the Mainspring Linear Generator, delivers reliable local

To be supplied by Mainspring Energy, a linear generator produces power through a low-temperature, flameless chemical reaction and can be used during peak demand periods. During the

Mainspring Energy will supply its linear power generators to the U.S. Air Force for a pilot at Travis Air Force Base, testing multiple fuels including natural gas and hydrogen to evaluate

California Bioenergy LLC (CalBio) and Mainspring Energy (Mainspring) today announced CalBio's purchase of an additional eight Mainspring Linear Generators to be deployed this year at its

Director of Software Engineering - Lead the Digital Backbone of Distributed Energy Mainspring Energy is reinventing distributed power generation with our Linear Generator -- a fuel-flexible, ultra-low

MENLO PARK, Calif., March 4, 2026 /PRNewswire/ -- Mainspring Energy Inc. today announced that it has

Mainspring energy linear generator

been awarded a contract by the United States Department of the Air Force (DAF) for a pilot

Driven by its vision of the affordable, reliable, net-zero carbon grid of the future, Mainspring is the leading manufacturer of linear generators, delivering onsite, dispatchable, fuel-flexible power for commercial

Mainspring Energy is revolutionizing power generation with the world's most flexible and adaptable local power generation technology, the Mainspring Linear Generator.

The Mainspring Linear Generator is an innovative and efficient energy solution. Leveraging cutting-edge technology, this advanced generator offers a

The Mainspring Linear Generator will operate on natural gas, hydrogen, and potentially other fuels, demonstrating power reliability and resilience, fuel flexibility, energy security, and energy ...

TULARE, Calif. and MENLO PARK, Calif., Feb. 23, 2026 /PRNewswire/ -- California Bioenergy LLC (CalBio) and Mainspring Energy (Mainspring) today announced CalBio's purchase of

Our Friday ENL leads with #biofuels #RNG producer California Bioenergy LLC acquiring linear generators from Mainspring Energy to power #distributedenergy #diary collection sites

The Mainspring Linear Generator -- distinct from an engine, turbine, or fuel cell -- directly converts motion along a straight line into electricity using chemical energy.

Company Overview Mainspring Energy is revolutionizing power generation with the world's most flexible and adaptable local power generation technology, the Mainspring Linear Generator. Commercial,

MENLO PARK, Calif., March 4, 2026 /PRNewswire/ -- Mainspring Energy Inc. today announced that it has been awarded a contract by the United States Department of the Air Force

Mainspring Energy Receives U.S. Air Force Pilot Project Mainspring Energy Inc. proudly announces that it has secured a contract from the U.S. Department of the Air Force (DAF) for a pioneering pilot

JOINT BASE SAN ANTONIO-LACKLAND, Texas - The Department of the Air Force is testing a 250-kilowatt fuel-flexible linear generator for Travis Air Force Base, California, that can run

The US Air Force has awarded Mainspring Energy a contract to test its multi-fuel power generation at Travis AFB to boost energy resilience.
