

Memc solar panels

About MEMC MEMC is a global leader in semiconductor and solar technology. MEMC has been a pioneer in the design and development of silicon wafer technologies for 50 years.

That said, silicon-based solar prices remain high enough to prevent photovoltaic panels from becoming cost competitive with fossil fuel sources, at least for now.

Given SunEdison's strategic shift, the upstream business (historically seen as the core of MEMC) of manufacturing solar panels now focused on internal consumption for the downstream business of
