Built for reliability and precision, the Solis 16kW Hybrid Inverter supports stable performance under varying load conditions, offering users a dependable solution for managing renewable energy in both

The Solis S6-EH2P16K03-SV-YD-L-US-RSS is a 16kW low-voltage hybrid inverter designed for high-performance residential energy storage systems. Featuring

S6-EH2P (5-8)K02-SV-YD-L Split-Phase Low Voltage Energy Storage Inverter / Supports up to 21A PV input current, compatible with the future higher-power PV module

Home > Power Inverters > Solis Inverters > Solis Solar Commercial Inverters > Solis S6 Commercial Inverters > Solis S6-EH2P16K03-SV-YD-L-US > 16,000

Engineered to meet UL1741 and IEEE 1547 standards, the S6-EH2P16K03-SV-YD-L-US offers robust safety features, anti-islanding protection, and outdoor-rated housing. It's built to withstand harsh

Rated for 200A pass-through and compatible with a wide range of battery types and brands. The S6 48V Hybrid makes resilient, cost-effective solar + storage installations easier than ever.
