

The EU's "Industrial Accelerator Act" for key domestic manufacturing sectors has been met with mixed reactions by the continent's solar industry.

Solar electricity is now highly affordable and with recent cost and technical improvements in batteries -- 24-hour generation is within reach. Smooth, round-the-clock output every hour of

Exploring the outer solar system takes power: Here's a way to miniaturize nuclear batteries for deep space by Evan Gough, Universe Today

SolarPower Europe has introduced new industry guidelines aimed at optimizing the development and operation of hybrid solar PV and battery storage systems. Unveiled at the Solar

Save on electricity bills with Tesla Solar Panels. Learn about installing and generating your own clean energy for your home with solar and home batteries.

WASHINGTON, D.C. -- The American National Standards Institute (ANSI) has officially approved a new American National Standard developed by the Solar Energy Industries Association

Solar and storage in the United States is booming. Along with our partners at Wood Mackenzie Power & Renewables, SEIA tracks trends and trajectories in the solar industry that demonstrate the diverse

The Global Wind Power Tracker (GWPT) is a worldwide dataset of utility-scale, on and offshore wind facilities. It includes wind farm phases with capacities of 10

We are seeking a highly motivated and solution-oriented person to assist in our Policy team. Location: Brussels, Belgium Deadline: 21 March 2026 Contact: recruitment@solarpowereurope

SolarPower Europe represents over 200 upstream and downstream organisations from the entire solar value chain. It does lobbying, provides reports and briefings and serves as a networking platform.

Bifacial solar panels are emerging as one of the leading solar technologies in 2026, offering higher energy yields by capturing sunlight from both the front and the

Building solar farms across Asia has become a major strategy for meeting rising energy demands while reducing carbon emissions. In countries like China and

Application A CV (maximum 2 pages) and a one-page motivation letter should be sent to

Solarpower org

recruitment@solarpowereurope until 21 March 2026 quoting "Senior Policy Advisor, Advocacy

The power station is in Namugoga Village, Busiro County, Wakiso District, in the Central Region of Uganda. This location is near the township of Kajjansi, along the Kajjansi-Lutembe Road, off the

In 2015, the largest solar farm in the state was at the Peterborough wastewater treatment plant, a 942 kW installation with 3,100 solar panels on 5 acres (2.0 ha). [17][18] In a pilot program, a solar panel

We are seeking a highly motivated and detail-oriented person to assist in our Finance & Administration team, starting April 2026. Location: Brussels, Belgium Deadline: 21 March 2026 Contact:

At the SolarPower Summit 2026, we'll explore how solar and storage together can power every corner of Europe's economy - from buildings to defense, from data centres to agriculture.

LAS VEGAS and WASHINGTON, D.C. -- The U.S. solar industry installed nearly 18 gigawatts (GW) of new capacity in the first half of 2025. Even as the Trump administration rolled out a series of anti

There are over 5 million solar installations in the United States, delivering clean, affordable, reliable energy to American communities.

The blistering pace of the buildout of solar and battery storage appears set to continue for at least the next two years, allowing renewables to keep winning market share from coal and gas in

SolarPower Europe is the award-winning voice of the solar PV sector, connecting over 300 members across the value chain with policymakers to accelerate solar as Europe's leading energy source by

A new report from SolarPower Europe shows that 597GW of solar energy was installed globally in 2024; an impressive 33% increase on the year before. The
