Supplier of liyu power

Liyu Group was founded in 1994. Its predecessor was Dongguan Liyu Electromechanical Co., Ltd., headquartered in Changsha City, Hunan Province. It is the core of the country and has three major

China Biomass gas generator catalog of Liyu 0.8MW/800kw Biomass Gas 10.5kv/10500V Power Generator Sets, Ly800gl-S Biomass Gas Low Voltage Genset for Distributed Power Plant provided

Liyu Power specializes in the development and manufacture of gas engine equipment, now has more than 70 scientific research achievements and national patents in the gas power generation industry,

In 2004,the company changed its name to "Dongguan Liyu Gas Power Co., Ltd." and invested in the construction of 40,000 square meters of Guangdong Liyu Industrial Base, officially entering the field

Scale up to utility-class power with the LY2000 Series: 2MW output at 50/60 Hz, 41.6% electrical efficiency and up to 88.5% total efficiency. Engineered for

Gas generators convert natural gas into electricity, providing an efficient and sustainable energy solution for marine applications. By harnessing natural gas, these generators offer a reliable power source

Backup generators ensure manufacturing facilities avoid costly downtime, protect assets, and maintain safety during unexpected power outages.

In 2014, the Shanxi Yangquan Liyu Security Power Plant was successfuly capped, a LNG project of coalbed methane liquefaction with 200 million cubic meters/year had been approved.Won the

Natural gas, as the cleanest and most efficient combustible gas, can be directly fed into gas engines via natural gas pipelines to generate power by driving generators. In scenarios where natural gas

Liyu Gas Power, with decades of dedication, specializes in the research and manufacturing of efficient and stable gas engine equipment. Liyu Gas Power currently holds over 70 research achievements

Liyu Group focuses on new energy development and its products and services are spread all over China, covering gas engine R& D and manufacturing, gas engine equipment sales, system

Its predecessor was Dongguan Liyu Electromechanical Co., Ltd., headquartered in Changsha City, Hunan Province. It is the core of the country and has three

Warranty: 12m From Operation/18m From Factory Hunan Liyu Gas Power Co., Ltd. Manufacturer/Factory &

Supplier of liyu power

Trading Company 360° Virtual Tour Hunan, China Rating 5.0 Diamond

LIYU Group is dedicated to becoming the world"s leading provider of multi-source power generation system solutions. Founded in 1994 and headquartered in

Founded in 1994 and headquartered in Changsha, Hunan Province, Liyu Group specializes in power equipment research and development, manufacturing, and sales of environmentally friendly and

Our energy solutions harness renewable energy sources while ensuring reliable power supply, enhancing energy security, and promoting sustainability. Our approach supports diverse

Liyu Group focuses on new energy development and its products and services are spread all over China, covering gas engine R& D and manufacturing, gas engine

The company has developed three key energy systems: Liyu Environmental Energy, Liyu Energy Conservation, and Liyu Power, creating a comprehensive, integrated ecosystem that spans R& D,
