Us2000 lithium battery

US2000 lithium iron phosphate battery is the energy storage products developed and produced by Pylontech, it can be used to support reliable power for various types of equipment and systems.

The Pylontech US2000 is a modular lithium-ion battery designed for energy storage in renewable energy systems, particularly for solar power applications. With its versatile design, it can

The US2000C is a 48V battery storage system provided by Pylontech, developed with their own lithium iron phosphate cell to ensure the highest safety, value and

In the world of renewable energy and off-grid systems, the Pylontech US2000 lithium battery stands out as a go-to solution for those looking to enhance their energy storage capabilities.

US2000 (VERSION B) is especially suitable for application scene of high power, limited installation space, restricted load-bearing and long cycle life.
