VoltStorage recently raised a Series C worth \$24 million from engine manufacturer Cummins. Its previous rounds included investments from SOSV

Voltstorage is powering down. Founded in 2016, the Munich-based company raised a total of EUR66m for its iron salt battery, designed to store renewable energy for extended periods.

Jenabatteries will nä. Jahr ein 40 kWh System marktreif haben, der Preis wird entscheidend sein, bei deutlich unter 20000 hat es eine Chance, sonst kann ich mir bei ZOE eine 40

VoltStorage entwickelt und produziert Energiespeichersysteme auf Basis ökologischer Redox-Flow-Technologien. Ihr Hauptprodukt, die Iron Salt Battery, ist speziell für Langzeitspeicheranwendungen

Die VoltStorage GmbH bietet einen Solarstromspeicher für Privathaushalte mit Vanadium-Redox-Flow-Technologie (VRF-Technologie) an.

German startup VoltStorage has raised EUR6 million to develop its solution for green energy storage. The funding round was co-led by Korys,

Auf der ees Europe 2018 konnte der VoltStorage SMART als innovativer Solarstromspeicher bereits viel Aufmerksamkeit auf sich ziehen - jetzt ist er erfolgreich im Markt

VoltStorage is an electric storage device that can store clean solar power during the day to power your home at night. It will save you a lot of money, protect the environment and help to

What Makes VoltStorage the Tesla of Flow Batteries? Imagine storing solar energy during summer sunbeams and releasing it during winter snowstorms - that's exactly what Munich-based VoltStorage

Voltstorage, a German company founded in Munich in 2016, is launching a vanadium-redox-flow (VRF) energy storage system aimed at the

Germany battery manufacturer VoltStorage has unveiled a containerised 50 kWh vanadium redox flow battery that is designed to optimise

VoltStorage entwickelt Redox-Flow-Speicher für Privathaushalte und arbeitet an einem Konzept für die kostengünstige Iron-Redox-Flow-Technologie.
