By seamlessly combining cutting-edge battery technology with conventional generation, Hybrid BESS delivers a smarter, cleaner, and more resilient energy solution.

WeLion's founder said the company is working with Nio to launch a hybrid solid-liquid electrolyte battery based on the ET7 with a range of 1,000

High-capacity lithium iron phosphate battery cells with hybrid solid-liquid electrolyte technology. These LFP cells deliver exceptional safety, long cycle life, and reliable performance for energy storage

This is where the Hybrid Battery Energy Storage System (Hybrid BESS) steps in. By seamlessly combining cutting-edge battery technology with conventional generation, Hybrid BESS delivers a

This project signals Welion's shift from energy storage hardware supplier to an integrated "technology + service" provider.

This hybrid approach allows for optimized performance across various scenarios, from sudden power demands to long-duration storage. Unlike traditional battery

According to the Cailian Press (CLS.CN), at the ChinaEV100 Forum, WELION New Energy's chief scientist and founder Li Hong revealed that WELION is cooperating with NIO

Welion New Energy recently completed on-site joint commissioning for a European Virtual Power Plant (VPP) power trading platform project--integrating PCS, a high-power hybrid inverter, and...

The first phase, now connected to the grid, marks the initial large-scale use of WELION's technology in energy storage. This project employs WELION's LFP solid-liquid hybrid cells, which have an energy

I just took delivery of a Welion Hybrid Solar Inverter Model WE-HY 4.2kW Eco and I would like to integrate this into my HA. I have integrated inverters like Epsolar/Epever and SRNE in
